

Kartik Purohit

Results-driven IT graduate (CGPA 8.5) with experience in frontend development, project management, and business development. Led operations in a government Smart Meter project, delivered real estate advisory in Dholera SIR, and built web platforms. Strong in leadership, client management, execution, and deal closure; seeking a high-impact, growth-oriented role.

Work Experience

Real Estate Investment Advisor and Sales Executive, Multiple Firms

Jan 2025 - Present

- Advised individual and corporate clients on Dholera SIR investments, executing B2B and B2C land sales and deal closures.
- Managed end-to-end sales cycle including client acquisition, site visits, negotiation, and successful transaction execution.
- Built strong client pipeline through networking and referrals, consistently achieving sales targets and driving revenue growth.

Project Manager, BCITS

July 2024 - Dec 2024

- Led government Smart Meter Indexing & Installation project, managing manpower, training, field operations, and end-to-end execution.
- Recruited and trained field teams, optimized zone-wise deployment, and ensured compliance with quality, safety, and technical standards.
- Monitored daily progress, managed reporting systems, handled client coordination, and submitted monthly reports with accurate billing and reconciliation.

Intern, MEETANSHI

Jan 2024 - April 2024

- Gained hands-on experience in IT workflows, Agile task management, and cross-functional team collaboration during frontend development internship.
- Developed responsive web interfaces using HTML, CSS, and JavaScript, contributing to UI redesign improving usability, functionality, and visual appeal.

Educational Background

Bachelor of Engineering Information Technology - B.E. IT

Gujarat Technological University

2020 - 2024

Projects

Dholera SIR Real Estate Platform & Investment Portfolio

Product Development & Sales Initiative | Dec 2024 – Present

- Developed real estate investment platform with project insights, market rates, ROI tools, and AI chatbot for investor engagement.
- Advised clients and executed B2B and B2C property transactions, integrating digital lead generation with real-world sales.

Smart Meter Indexing & Installation Project

Government Infrastructure Project | Jul 2024 – Dec 2024

- Executed end-to-end smart metering project covering recruitment, training, area allocation, field operations, and reporting.
- Ensured full compliance with government standards including documentation, billing accuracy, and structured monthly progress reporting.
